Kerri,

Are we anticipating April's statement during the board meeting will also strongly refute the notion that the board didn't understand what they were doing?

Please review. Ryan, I added some of your factual points about the Council Auditor's calculations. Please check to make sure I captured correctly. Herschel, I addressed the changes we discussed; please check to see that I captured correctly.

I took a stab at a Myth/Fact about the Board. It is at the bottom of the document. I welcome input on the necessity of it and if yes, wordsmithing.

Finally, I'd like for us to have a letter/memo authored by Ryan to the Board refuting the Council Auditor's characterization of the PUP. I think it should come out next week in the lead up to the board meeting. It could even be a memo for the board package.

Thoughts? k
